(Continued)

Alcohol-Impaired numbers are estimates derived from a sophisticated statistical procedure. The estimates are rounded to the nearest whole number, however, percentages as displayed are calculated from the unrounded estimates and may not equal those calculated from the rounded estimates. Totals may not equal the sum of components due to independent rounding.

**Total fatalities includes fatalities in crashes in which there was no driver or motorcycle rider present.*

'In Construction/Maintenance Zone' includes Construction, Maintenance, Utility, and Work Zone, Type Unknown
