
Work Zone Safety Activity Book

CH2MHILL

Helping Each Other Stay Safe in Work Zones!

HSSE
Target Zero
World-Class Performance

Welcome!

Welcome to the CH2M HILL Work Zone Safety Activity Book! We created this book because we want you and your family to stay safe; whether you're driving through a work zone or if one of your family members is working in a roadway work zone.

Please help us to make work zones safer by giving this Activity Book to your child (open to all children 12 years old and younger) and talk with them about work zone safety. The Activity Book includes:

- Coloring sheets;
- Word puzzles;
- A Maze;
- Draw your own work zone safety picture; and
- A work zone fact sheet

If your child colors or completes one activity sheet and returns that sheet to the address below by Friday, April 23, 2010, we will mail your child a CH2M HILL fabric lunch cooler, with some giveaways inside. We will mail each prize to the CH2M HILL employee at their office address.

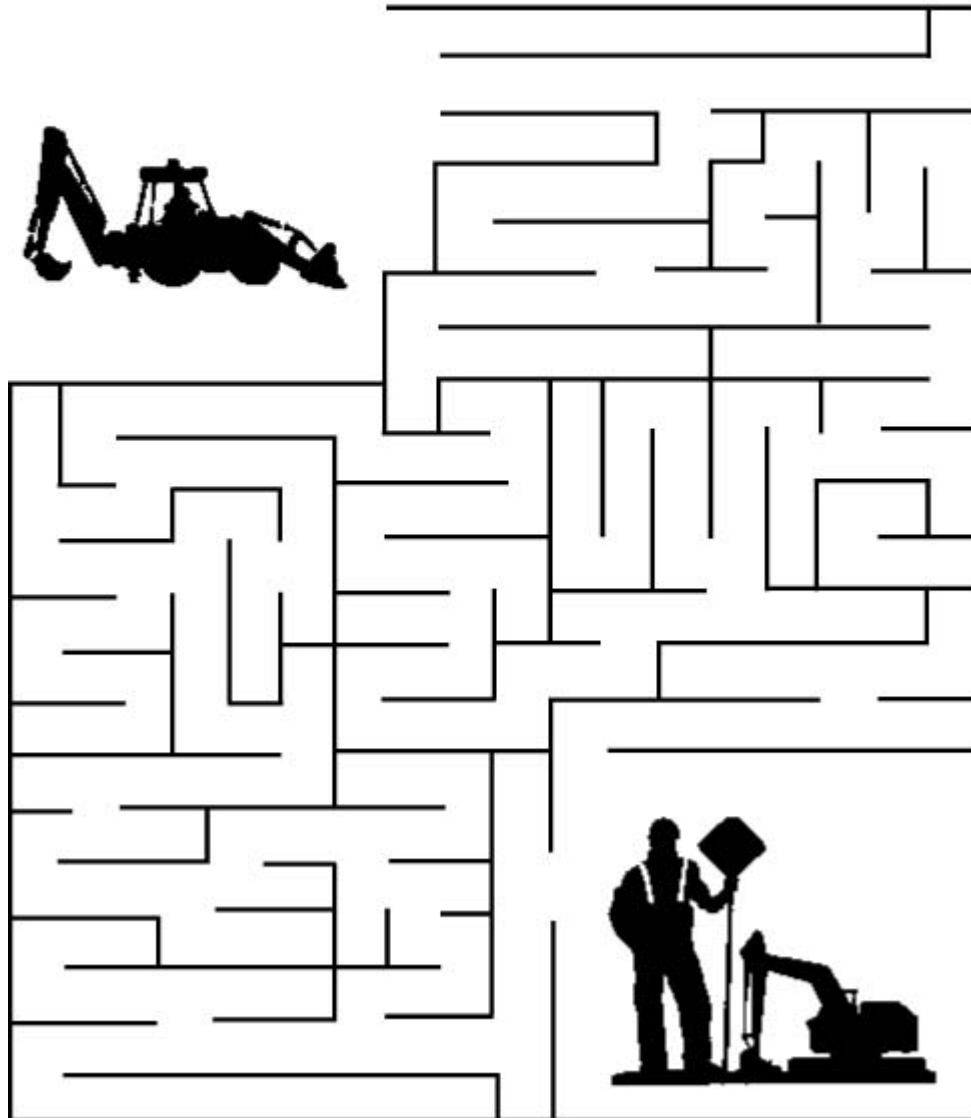

Join us in the quest for safe work zones by reaching out to the next generation of your family about this important topic!

Please send your child's entry packet to:

Work Zone Maze

Can you help get the backhoe to the job site?

Color these images.
Cut them out to make your own work zone.

SWEET!
I CAN SEE
OUT!

Make sure everyone in the car buckles up!

Can you find the HIDDEN WORDS?

Draw Your Own Picture of a Safe Work Zone

If you don't want to color one of the activity sheets in the book, draw your own! Please use the space on the next page to draw and color your own picture of what you think makes a safe roadway work zone. Include in the drawing a slogan that you think will help drivers be more safe while driving through work zones.

Include at the bottom of your artwork, your first name, and your age and have your parents submit it to Dave Hancock in the CH2M HILL Denver office by Friday, April 23, 2010.

Draw Your Picture of a Safe Work Zone

**IF YOU HAVE QUESTIONS OR WANT TO SUBMIT THIS DRAWING, PLEASE SEND THEM TO:
DAVE HANCOCK, CH2M HILL , 9191 S. JAMAICA STREET, ENGLEWOOD, CO 80112, (720) 286-1818,

Driving to Zero - How You Can Help Make Work Zones Safe!

The maze of traffic cones, workers, and flashing lights in a work zone is a very cool sight, but work zones can also be very scary and unsafe if we are not all safe when we drive through them each day.

We'd like your help in making our roadway work zones safe. There are some really easy and quick things that we can all do to make that happen:

- Whenever you ride in a car, always wear a seat belt or ride in your car seat. The seat belt helps to protect us in our cars;
- Make sure your family always wears their seat belts too. The seat belt will help to make them safe!
- Don't take off your shoulder belt, even if it's uncomfortable. The shoulder belt helps to make the seat belt stronger, and it will protect you even more, if you wear it the right way.
- Whenever you are preparing to cross a street, make sure you look both ways before crossing and always cross with your parents.
- When you ride your bicycle, wear your helmet. If you fall, the helmet will help protect your head and will prevent you from being injured.

Just because you're not driving yet doesn't mean you can't help make our work zones safe. You can make a difference; just by doing your part!
